WH 六何法 5W1H

項目願景：推動社區居民參與建設拾荒者友善的社區，讓社區居民正面地連結拾荒者的工作，使拾荒者工作得更便利、更有尊嚴
Project Goal: Promote community residents to participate in building a waste picker-friendly community, so that they can positively connect with the work of waste pickers, facilitating their work, and thereby enhancing waste pickers' dignity

何時 When

項目設計 Design of the Project

拾荒者(何人)如今在社區收集紙皮、鋁罐等回收物的工作常遭到歧視, 因為部分社區人士和食環職員(何人)沒有看到拾荒者為環保付出的努力(為何), 讓他們在收集回收物的過程中, 遇上重重困難(何事)。

Waste pickers (Who) often face discrimination for collecting cardboard, aluminum cans and other recyclables in the community since part of the public and FEHD staff (Who) are not aware of their efforts in protecting the environment (Why), waste pickers keep encountering many difficulties in the process of collecting recyclables.

我們可以建立一個網上系統(何物), 登記該區拾荒者的聯絡資料、活動範圍、工作時間等資訊, 供較熱心的社區人士(何人)查閱, 產生帶頭作用(如何)。當居民搬屋、可能要棄置大量紙皮時(何時), 他們可於網上平台查找附近拾荒者, 在相應時間和地點把紙皮交給拾荒者, 使拾荒者協助他們把紙皮送到社區回收店(何地), 從而使社區人士更為在意拾荒者對社區的貢獻, 促進拾荒者與社區居民的互助文化, 並逐漸感染更多人, 以利拾荒者的回收工作(如何)。

We can establish an online system (What) to register the contact information, scope of activities, working hours and other information of the waste pickers in the area for the more enthusiastic citizens to check. When new comers move into the area and have a large amount of cardboards to discard (When), they can find nearby waste pickers on the platform, hand over the cardboards to them at corresponding time and place, so that the waste pickers can deliver these cardboards to the community recycling store (Where), thereby allowing the community to be more concerned about the contribution waste pickers have on the community, promote a culture of mutual assistance between waste pickers and the community, and gradually motivate more people to facilitate the recylcing work of waste pickers (How).
